Extensive background in Category Management in hospitality industry. Looking to pivot to a Data Analyst position in policy administration or non-profit organization.

PROJECTS

Video Game Sales Analysis

Analyzed over 16,000 records of global video games sales spanning from 1980 to 2020 across three international markets using Excel pivot tables and charts. Evaluated genre popularity, competitor performance, and regional trends which uncovered market shifts and storytelling opportunities from more than 8 billion units sold worldwide.

Movie Rental Analysis

Analyzed rental and customer data across 550 records spanning 15 global markets and 10 movie genres using SQL and Tableau. Identified behavior patterns and revenue concentration exceeding \$32K, uncovering genre and regional trends that supported the company's strategic shift to streaming.

Grocery Shopping Cart Analysis

Analyzed customer purchasing behavior across multiple datasets using Python (pandas), joining over 3 million grocery orders with demographic profiles to uncover segmentation opportunities. Visualized trends with matplotlib and Tableau, identifying peak shopping hours, loyalty patterns, and product preferences across 21 departments thereby informing targeted marketing strategies for 15 + customer profiles.
